The dock leveller upgrade solution - for replacement of existing levellers

A Crawford DL6020TR Teledock Replacement is a cost-effective upgrade solution to replace obsolete dock levellers. The wide sizes range and the variety of frame designs make it possible to replace existing levellers without any reconstruction. Your expert from Crawford will do the visual inspection and find the best solution for your individual situation.

The Crawford DL6020TR Teledock Replacement:

- Preventive maintenance is easy and fast to secure functionality and avoid downtimes.
- Telescopic lip giving optimal load utilization of the whole vehicle bed area.
- Larger contact area between vehicle bed and dock leveller.
- Easy and comfortable operation.
- Optimal and safe positioning on the vehicle bed.

Crawford 950 series - the intelligent, all in one, docking control system

The innovative and unique 950 series docking control system gives you direct control of the dock leveller, dock shelter and door all in one control unit. With only a few self explaining buttons it is easy to operate, to meet the demands of modern logistics. Separate steering units or complex wiring are no longer needed.

Crawford DE6090DI Dock-IN

Crawford Dock-IN is the world's first combined solution with parking guide and traffic lights in one system. Crawford Dock-IN ensures a safe and secure dock in procedure with the help of white guiding lights and red traffic lights. There is no need to paint and repaint guiding lines on the asphalt or install conventional steel parking guides, which are an obstacle in the yard. With modern LED technology Crawford Dock-IN has a low energy consumption and a long life.
